## ESP- **KNX** MAXX Truss Pick Entertainment

**FASTER, STRONGER, SAFER, CODE COMPLIANT CONNECTIONS WITH ESP TRUSS PICKS**

CS-E0003-Rev.H-03/08/2017

### GEARED FOR TEMPORARY, ENTERTAINMENT STYLE INSTALLATIONS

- **STRONGER AND LIGHTER.**  
 ESP's MAXX TRUSS PICKS ARE MADE OF ULTRA-STRONG, SUPER-LIGHT 7050-T7451 AIRCRAFT QUALITY BILLET ALUMINUM WITH HARDENED TOOL-STEEL TOGGLE BOLTS. THE STRONGER DESIGN GIVES IT MORE CAPACITY FOR STACKED GRID ARRAYS AND DYNAMIC LOADING.
- **ADAPTABLE AND VERSATILE.**  
 THE COMPACT VERTICAL DESIGN CAN BE USED WITH ADJUSTABLE TRUSS ANGLE SYSTEMS. IT'S ADAPTABLE TO ANY TRUSS SYSTEM CURRENTLY IN USE WITH 2" DIAMETER TRUSS CHORDS AND IS AVAILABLE IN 12", 16", 18", 20.5", 24", AND 30" SIZES.  
  
 ESP ALSO OFFERS CUSTOM SIZES AND CONNECTION METHODS. CONSULT ESP ENGINEERING TO MEET YOUR SPECIFICATIONS. OR, GET CUSTOM ENGRAVING WITH YOUR COMPANY NAME AND LOGO.
- **FASTER AND SAFER.**  
 A SELF-LOCATING CLAMP SEAT PULLS THE CLAMP INTO THE CORRECT POSITION AS IT'S TIGHTENED AND PREVENTS THE NUT FROM SLIPPING OFF THE CLAMP IF IT'S NOT FULLY TIGHTENED. CLAMP CLAWS NEVER SPREAD UNDER LOAD.

THE CAPTURED, STEEL-INSERTED FOLDING NUTS ALLOW SUPER-FAST CLOSURES, EVEN WITH GLOVED HANDS.

ESP'S CLOSURE SYSTEM MEANS NO EXTRA HARDWARE TO FUMBLE OR LOSE, NO THREADS TO DAMAGE AND NO MORE BUSTED KNUCKLES FROM SCAFFOLDING-STYLE CLAMPS.

- **STANDARDIZED, SERIALIZED & TRACEABLE**  
 EACH TRUSS PICK IS ENGRAVED WITH A SERIAL NUMBER AND DATE OF MANUFACTURE AND HAS A RECESSED AREA FOR BARCODING AND ANNUAL INSPECTION TAGS.
- **OPTIONS**  
**AVAILABLE SIZES: 12", 16", 18", 20.5", 24", 30" AND CUSTOM SIZES**
